Each of the agencies has own paper and online rosters of subscription editions, in which our company has been included for 15 years, bulky green catalogue is used as well. There you can find all branch yearbooks and links to sites of polpred.com integrated

database; as for the subscription to most of our 235 country-oriented sites (and site-based yearbooks), it is available only via our head office. A subscriber receives a CD with archived pdf-information for the period of 15 years and online access to a daily renewed section of database. The volume of 2012 yearbooks «Agroindustry in RF and abroad» or «Business China» with full-text mass media stories is 4000 pages each, A4, the fine print. It is much easier to operate online database with editorial classification and search settings; bulky pdf-file is just an aid for those who does not broad-band Internet access.

Full paid subscription to database of polpred.com is available only in head office. Such subscription denotes increased number of sources and internet-services as well as entitles to consult with the head office and login from any PC. The first annual contract after the test period costs 480 000 rubles and guarantees access for all IP-addresses of your company including access via login/password from PCs for readers; the latter logon to polpred.com from library PC, register and obtain personal login/password via e-mail. Paid subscribers are able to sort reports and make bookmarks (personal list of selected articles — may logon from any media dive). As for public libraries, paid subscription means availability of connection for subordinated municipal libraries altogether.

- 16 News feed settings in the section «Personal news collections». Selection from any number of countries, branches, federal districts and sources. Frequently used bookmarks are saved, for example «Agroindustry in Central Asia», «Countries I have been to» etc.

Options for a library reader with full access to Polpred.com Mass Media Review

Priorities. Full text archive of the best reports of business media. News helps find job and a place for living, study and recreate. Newspersons report about main financial flows, rate countries, professions, persons and events.

Branches. 25 in a rubricator, in addition to that there are 290 sub-branches; the key words of the archive are on the main page. The subject of insurance is covered in such sections as «Finances», «Medicine» and «Transport» etc.

Countries. 235 countries and territories in the rubricator. Hong Kong and China have two sites in our database, their news and Internet-services can be viewed together or separately, it is also possible add Taiwan and DPRK. Our sites on countries are the most informative in the RuNet.

Sources. Total 600, main — 130. We take 5-7 feature stories from MK, a couple from aze.az. Blockbusters: free public transport in Tallinn, building regulation in France, interview with Kaspersky. Part of publications is our own production.

Classification. Follow the rubricator to form a long column in Word and make own classification of your future document.

News of Privalzhskiy Federal District. A reader from the city of Ufa views our longest newsfeed of Volga region in the RuNet, or the newsfeeds of other Federal Districts, with any selection of branches.

Content. Thousands of business newsfeeds about specific topic just choosing a few options of the rubricator: much better search convenience than in standard mode. Part of our information is published for the first time and it is not available as premium content on the Internet.

Rubricator. Personal settings. It is possible to view Southern Federal District and North Caucasian Federal District together with Turkey and Germany to learn about investments in the south of Russia.

User. Wants to know about new entries of the day — materials published a month ago but added by us only yesterday.

Main. «Editor's choice»★, link in the rubricator. By branch/country, each newsfeed has options of standard view (together with the other news) and primary view of stories by dignitaries and important plots.

Persons. 3287 newsmakers. Experts are good at explaining complicated matters to people. By countries and branches — stories / interviews by experts.

Search engine. One or two words/names to start searching through the texts, headlines and labels, infographics excluded.

Authorization. On top left of the screen is indication or name, reader's IP-address. Beside there is a button «statistics» — who / when / how many / articles / from what PC was downloaded or viewed among the readers of the library.

External IP-address. Login/access authorization is not convenient for readers, but it is easy to all with static IP-address. System administrator can provide direct access from all IP-addresses of the educational institution including dynamic IP-addresses.

Readers. Test access «All Inclusive» for a year or more for higher educational institution with affiliates or a public library which forms permanent users.

Subscription. Paid access. Benefit for Ministry of Education. Direct subscription or via Ural-Press, enables a library to save on non-science periodicals.

Subscriber. Works from home, with personal settings, consults with our head office. Test access provides fewer sources. Strangers have limited access to classification.

Statistics. General and by the category of libraries in the countries and districts of RF. Geography and topics in readers' demand. The number of articles in archive, classification by branches and countries, years and days.

Non-fiction. 6000 new scientific books in English in full, legal download. In the same menu — «Books free of charge», two hundred e-yearbooks on countries and branches based on database of Polpred.com Mass Media Review; pdf and paper versions are only by order.

World sites. English and Russian. Global internet services. By countries: mass media, power, higher educational institutions and large companies. Although the database does not correlate with the news rubricator but it copies the latter with its list of branches and keywords.

English. Mass media stories about innovations. Catalogue «World sites», internet services of ministries and leading companies of all countries. The Lecture by the professor of the best US educational institution gets millions of responses from the whole world.
